

Electric Lift Chair Selection Form- Attachment 1

Electric Lift Chair Definition- Electric Lift Chairs are stationary pieces of furniture that have a motor that will lift the seat to enable individuals with compromised mobility to stand without effort and sit safely. The motor will also adjust the position of the chair to allow for comfort. Standard electric lift chairs should have a weight capacity of up to 325 lbs. and bariatric lift chairs should have a weight capacity of over 325 lbs.

Service Selection	Short Code	Unit Definition	Cap Rate	Provided Rate
Standard Electric Lift Chair	ELC1	1 Lift Chair = 1 unit	\$750.00	
Bariatric Electric Lift Chair	ELC2	1 Lift Chair = 1 unit	\$750.00	

In order for an application to be processed, the following items must be submitted at time of application as well as maintained throughout the life of the contract. Applications submitted without all required items will be held for thirty (30) days, after which the application will be considered invalid and will be destroyed. Failure to maintain all items throughout the life of the contract will result in service suspension and/or contract termination.

City Business License- If currently operating out of Utah, submit a copy of the comparable document from the city of operation.
